

An Open Access Journal

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and make free use of your article

Impact Factor 2.077 (2015 Journal Citation Reports®)

Thorough Peer-Review

Coverage by Leading Indexing Services

SCIE-Science Citation Index Expanded (Clarivate Analytics, formerly Thomson Reuters), Compendex/Engineering Village (Elsevier), Scopus (Elsevier)

No Space Constraints, No Extra Space or Color Charges

No restriction on the length of the papers, number of figures or colors

Discounts on Article Processing Charges (APC)

If you belong to an institute that is part of MDPI's institutional membership program

More Information about This Journal

Aims and Scope

Energies aims to be a leading peer-reviewed platform and an authoritative source of information for analyses, reviews and evaluations related to energy engineering and research.

The journal covers research in energy engineering and sciences, with a strong focus on energy storage and conservation, biomass and bioenergy, renewable energy, electricity supply and demand, energy in buildings, and on economic and policy issues. The journal also welcomes papers on related topics such as energy modelling and prediction, integrated energy systems, energy planning and management, provided such topics are within the context of the broader multi-disciplinary scope of energy.

Key areas covered by the journal:

- Energy Fundamentals
- Primary Energy Sources
- Renewable Energy
- Energy Exploration and Exploitation
- Energy Conversion Systems
- Energy Policy
- Exergy
- Energy Research and Development
